Learnings from Enterprise Applicable to Smart Cities

“Simplicity is the
ultimate
sophistication”

Leonardo da Vinci

Writing code is writing bugs

Summary

- 20 years of Enterprise Ontology building and implementing Enterprise Ontologies have taught us some lessons that apply in spades to Smart Cities
- The Smart City Landscape informs us how to apply those lessons
 - **Think Big / Start Small** even more important at city level
 - **Simplicity** is key to integration
 - **Low code / No code** key for citizen developers
